

CHROMO CIRCLE

guest room | corridor | lobby | office | outdoor area

CHROMO CIRCLE is a quality full of possibilities and therefore quite rightly finds its place in almost all imaginable indoor areas. The quality can be manufactured both as a laid and a fitted carpet. Also, CHROMO CIRCLE only reaches its limits of resilience at a late stage due to the machine tufting process and the use of polyamide yarn. Thus, the quality is well suited for high-traffic areas such as corridors, but is also often used in guest rooms. In terms of design, even particularly detailed creations can be realized precisely, because during manufacturing a white carpet is first produced onto which the design is printed afterwards. This not only makes it possible to use a large range of colors in the design. It also allows production to start from small minimum quantities as there is no need to dye a minimum amount of yarn.

Manufacture machine tufted, printed

Pile material polyamide

Colours up to 8

Overall weight 1000 g/SQM

Price from **18\$/SQM***

*MOQ 10.000 SQM, incoterm EXW
Germany, final prices calculated on
individual basis
