

FIVE STARS

guest room | corridor | lobby | office | outdoor area

FIVE STARS is the quality by ligea[®] that contributes to the good first impression when new guests enter your hotel. Thanks to the special Axminster weaving process and the mix of the robust materials wool and polyamide, FIVE STARS withstands a high load and is easy to clean. This makes FIVE STARS ideal for all high traffic areas such as corridors and ballrooms. The more densely the yarn is woven the more resilient the carpet and the higher the resolution of the design. Primarily produced as installed carpets, Axminster can also be manufactured as fitted carpets in your desired size. With additional design accents of shiny polyamide yarn your Axminster flooring will be an exclusive and outstanding eye-catcher, that's for sure.
