

# GRAND ROYAL

guest room | corridor | lobby | office | outdoor area

GRAND ROYAL takes our commercial hand tufted quality ROYAL to the next level in terms of appearance and quality. Our high end hand tuft quality is thus not only ideally suited as a fitted carpet for guest rooms, but can also be installed as the eye-catcher in your lobby. The special feature of GRAND ROYAL is the particularly densely tufted pile, which appears even smoother and more beautiful than ROYAL, as well as allowing for a higher resilience and longer lifespan of the carpet. Depending on the material used the design and resilience of the carpet can be influenced. Possible options include wool, viscose, wool with design accents of shiny viscose, or even a mix of wool and polyamide that combines the best features of both materials. One thing is certain, however, no matter what material is used, GRAND ROYAL will give you a feeling of home and your guests will enjoy a whole new level of comfort.
