

ROYAL GARDEN

guest room | corridor | lobby | office | outdoor area

As a variant of our hand tufted indoor quality, ROYAL GARDEN becomes the perfect solution for creating outdoor spaces. The adapted production and the use of a strong and weather-resistant yarn allows the permanent use of the carpet in the open air. Thus, ROYAL GARDEN skillfully enhances the outdoor lounge, balconies and pool areas of your hotel because this quality is not only optically timeless, but also withstands high load for a long time. However, the carpet beautifies our environment not only by its appearance. The polyester yarn from which ROYAL GARDEN is made is spun entirely from recycled PET and thus also contributes to a more sustainable use of materials in the interest of our environment.

Manufacture hand tufted
