

# SKY LOUNGE

guest room | corridor | lobby | office | outdoor area

SKY LOUNGE brings a noticeably lively atmosphere to the room through the dynamic waves of its high pile. The surface of this carpet changes again and again when someone walks over it and looks even more alive because of the elegant shimmer that emanates from the pile. The polyester yarn, which is responsible for that through its shiny surface, also has the effect that the quality is quite resilient and as a fitted carpet, creates a comfortable ambience in guest rooms and lounges.
